

# The Revach Lab

Is opening at the Faculty of Medicine at the Technion

## Excited about translational cancer research? Join us!

We are looking for an experienced lab manager

### You:

PhD in a relevant field (cancer Biology, immunology or related discipline).

Hands-on experience with human cell culture and *in vivo* work.

Experience with CRISPR screens, microscopy, or organ-on-chip systems- an advantage.

Independent thinking, scientific creativity, and organizational skills.

### We offer:

Opportunity to establish and shape a new lab from the early stages.

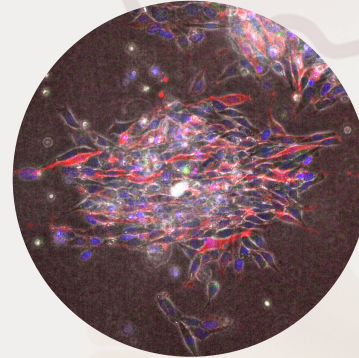

Work with state-of-the-art patient-derived human tumor models.

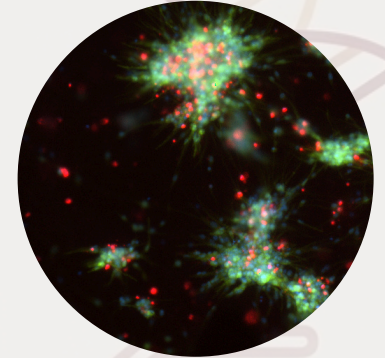

A collaborative, motivation-driven lab environment.

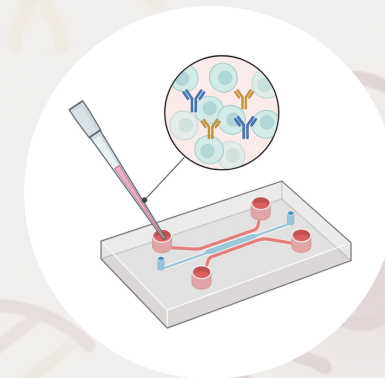

**Tumor immune evasion mechanisms**

**Overcoming T cell dysfunction**

**Tumor-immune interactions and therapeutic testing in human tumors**
